August 13, 2026

1 Debt Register

Debt	Cause	Impact	Priority	Resolution
SQLite-only design	Fast local setup	Limited scale	Medium	Migrate to PostgreSQL
No capacity enforcement	Time constraint	Overbooking	High	Add validation checks
Single organizer role	Simplified scope	Limited access model	Medium	Add staff roles
Basic security controls	Scope reduction	Security exposure	High	Add rate limiting and lockout

2 Repayment Plan

Version 2.x should address users, security, and scale while preserving core ticketing behavior.
